

Future events as at January 2024

I have developed further the proposal presented and agreed at the last committee meeting.

I have kept to the proposed Winter pattern, but the summer pattern is a bit different. I had a number of people confirm interest in a summer JOG series so I have a proposal for a very small series finishing with a couple of fun events.

I am looking for comments and/or approval for the following:

- the proposed summer programme, dates and venues.
- the proposed regional events for next winter, dates and venues.

If ok I will then start to get people lined up.

Thanks
