There was a little glitch in the result recording near the end of the afternoon.

I think the ones affected are correct to the nearest minute. Please let me know if you disagree

Thank you all for coming.

Apologies for the slight delay in sending these results, our statistician was in sunnier climes, until Tuesday. He was sitting on a pavement (not literally) in Barcelona drinking coffee at midnight. What a lucky fellow.

Next QOFL is at Copley Wood near Street on 9th February Grid Ref ST505327
